

Dear All,

We have received information from the Thomas Theyer Foundation in Buxton of a counselling service they are able to offer from February 2021 after recently being awarded funding.

TTF works to support children and young people with additional needs, their families and carers.

The counselling service will offer free, confidential 1-2-1 talking therapy for children and young people with special educational needs or difficult life circumstances. The service will also be extended to their parents or carers on a donation based service.

They will also be offering a paid for service to the wider community.

They have qualified children's counsellors who are ready to offer online or telephone counselling.

To enquire about the service - parents can email counselling@thomastheyerfoundation.org.uk

Kind regards
